A NEW RAILROAD.

Contract Let For Building the Cape Fear and Northern.

There was a meeting of the directors of the Cape Fear and Northern railway company at Cary yesterday at which a reorganization of the management of the road was had.

Mr. G. B. Alford tendered his resignation as president of the road and Mr. B. N. Duke, of Durham, was elected to succeed him. Mr. T. B. Holt resigned as secretary and Mr. J. E. Stagg was elected to the office.

It was announced that the construction of the road would begin without delay and as an evidence of this the contract was let at the meeting.

Messrs. Gibson and Carpenter Bros. got the contract and they are to begin work on Wednesday, July 27th, at Holly Springs. The road will be pushed to completion as early as possible.

All the stock for the construction of the road was taken.

The road will extend from Raleigh to Fayetteville passing through fine timber lands in the counties of Wake, Harnett and Cumberland. It is the ultimate object of the promoters of the railroad after completing it to Fayetteville to extend it to Wilmington.

The promoters of the road intend to open up a fine timber section, which is also rich in agricultural and other products.

The Raleigh and Cape Fear railroad, which Mr. J. A. Mills is pushing to completion, will soon be in operation. Mr. Mills will build his road through to Lillington first.—Morning Post.

Captured Spaniards Sent Home.

The British steamship Hesperia, of the Anchor line, sailed from the Union Stores at the foot of Baltic street, Brooklyn, for Gibraltar, at 3 o'clock yesterday afternoon, with 237 Spanish sailors on board. Of this number 74 were captured on the Spanish steamships Pedro and Guido, and the others were on two sailing vessels captured off Cuba. The Spanish sailors were taken to the foot of Baltic street on Saturday night and slept on the pier. Among the passengers were four Spanish captains, who had first-class passage. The Austrian Consul received \$5,000 from the Spanish Government to pay for the passage of the prisoners.—N. Y. Sun.

THE POWERS TO INTERFERE

Agreed That America Shall Not Annex Philippines?

INSURGENT LEADER KILLED.

Steamships at Cadiz and Gibraltar Ready to Sail for Santiago to Carry Home Spanish Prisoners.

By Cable to THE TELEGRAM.

Hong Kong, July 26—Repeated telegraphic reports received here from European capitals announce that all the powers have agreed that America shall not annex the Philippine Islands.

This news has had a tendency to greatly arouse activity at the Spanish headquarters in this city and reports of the most encouraging nature are being sent to the Spanish governor at Manila, and attempts to buy or kill Gen. Aguinaldo, the insurgent leader, have been renewed with vigor.

Consul Wildman is beginning to show the effects of the great strain to which he has been subjected and has moved to Victoria Peak to avoid being harassed by Spanish spies and much annoyance by volunteers who are eager to enlist with the Americans in the Philippines.

The German ship Petrarca left here this morning with supplies for the German fleet at Manila.

TO FIX THE BLAME.

New York, July 26.—Surgeon General Sternberg arrived this morning to investigate the charges concerning the condition of troops on the Seneca. The charges allege criminal negligence on the part of officials of the relief ship from which they were transferred to be transported here. Surgeon Sternberg will fix the blame.

TO CONVEY PRISONERS.

Gibraltar, July 26.—It is reported that papers have been issued by the American consul to two steamers of the Trans-Atlantic line giving safe conduct to convey to Spain prisoners of war now at Santiago. The French fleet was sighted on Sunday off Cape Trafalgar.

LET 'EM SAIL.

Cadiz, July 26.—Four steamships are in readiness to sail to Santiago to transport a portion of the surrendered troops to Spain.

HOBSON IN BOSTON.

Boston, July 26.—Lieutenant Richmond P. Hobson has arrived in this city and is today in conference with two boat companies.

INSURGENT LEADER KILLED.

Madrid, July 26.—Despatches from Havana say that in the engagement between the Spanish and insurgents at Jicota, the Spanish loss was three killed and thirteen wounded and the insurgent leader was killed. It is reported that Miss Schley has been ordered to leave Spain immediately.

FIRE IN CUBA.

Cape San Antonio, July 26.—The light in the western extremity of Cuba is still burning; Havana is brilliantly illuminated.

DANDY FIRED ON.

Key West, July 26.—A Squadron of Spanish soldiers three miles west of Bahia Honda fired on the dispatch boat Dandy yesterday. The flashes of smoke along the shore marked the progress of the Dandy, which seemed to be excellently watched.

Private Devine's Sentence.

Jacksonville, Fla., July 24—Private Charles T. Devine, of Company A, Fourth Illinois Regiment, left here tonight under a guard, for Fort Leavenworth, Kan., having been convicted of the larceny of \$20 from a comrade. He admitted the theft and returned the money. Devine is from Tuscola, Ill., is sentenced to serve nine months at hard labor, the forfeiture of all pay and dishonorable discharge.

The Peace Talk all Bosh.

London, July 26.—The Daily Chronicle this morning claims to know positively that no peace negotiations of any sort have occurred between the American and Spanish governments. The Chronicle says: "Spain has made no approach and apparently does not mean to yet. It is understood that the Spanish government is still hopeful to organize a European concert against the United States."

Hobson's Sweetheart.

Noblesville, Ind., July 25.—Quite a pretty young lady, Miss Lettie Cook, is visiting friends near this city. It is an open secret that she is the fiancée of Lieut. Hobson, of Merrimac fame. Miss Cook met the lieutenant at a wedding in Norfolk, Va., several months ago, a correspondence followed and an engagement resulted later.

A REMARKABLE INCIDENT.

The Case of Sylvester Scovel, the World Correspondent.

The newspapers are now giving the particulars of what is, if true the most amazing incident that has ever occurred in this or in any other war.

The Spanish officials were engaged in surrendering the city to the American authorities. When the time came to raise the United States flag over governor's palace, Sylvester Scovel, a correspondent of the New York World, attempted to make his way to the roof of the building for the purpose of participating in the ceremonies. He was ordered down by the guard.

When the ceremony was over and the flag had been raised Scovel pushed his way to Gen. Shafter and slapped that officer's face. He was promptly arrested and confined.

Such, in brief, are the details of an occurrence that has no parallel so far as we know. That the correspondent was not shot by some of the soldiers or a sword run through him by an officer is an evidence that the general, as well as those about him, exercised great self-restraint. And yet, such an event would have been unfortunate, for the whole performance shows that Scovel was either drunk or demented.

It is said that the Washington authorities are puzzled to know what punishment to mete out for this offense, and well they may be, for it has no precedent. In the nature of the case, Scovel was the guest of the army, and his violation of the privileges and hospitalities extended him constitute, as we have said, the most remarkable case on record.

He will probably be tried by a court-martial and ejected from the army under circumstances sufficiently ignominious to make his punishment exemplary.—Atlanta Constitution.

Sampson's Claims.

The Washington Post sarcastically notes the activity of Admiral Sampson in claiming the captured ships at Santiago as naval prizes. General Shafter was right in not allowing this. Uncle Sam very properly decided that the property belong to the government and to no one else.—Augusta Chronicle.

General Wheeler.

Those patriotic gentlemen down in Alabama who are so anxious to succeed General Wheeler in Congress are wasting time and money. When Joe Wheeler gets home from Cuba the Alabamians will give him half a dozen seats in Congress if he wants them.—Shelbyville (Tenn.) Gazette.

GENERAL SHAFTER'S REPORT

Casualties of the Recent Battle Received in Detail

THE OLIVETTE CARRIES SUPPLIES

Orders for the Further Movement of Troops for General Miles' Porto Rican Expedition.

By Wire to THE TELEGRAM.

Washington, July 26—Gen. Shafter's detailed report on the American casualties in the recent battle at Santiago has been received by the war department and is being prepared for publication.

The total number of casualties is 1,595, as follows: Killed, 23 officers, 208 enlisted men; wounded, 80 officers and 1,203 men; missing, 81 men. The missing are supposed to be dead, as the Spaniards took no prisoners so far as is known.

STEAMERS CHARTERED.

San Francisco, July 26.—The Canadian Pacific steamships Tartar and Athenian, also the steamship Charles Nelson have been chartered by the government as transports. General Merriam has selected Colonel Stover, of the South Dakota infantry, to command the expedition to Manila which sails on the St. Paul this week. Two deaths among the troops have been reported.

ORDERS TO LEAVE CAMP.

Chattanooga, July 26.—Orders have been received for the Third brigade under Gen. Grant to leave for Newport News this afternoon.

OLIVETTE SAILS.

New York, July 26.—The Olivette leaves this afternoon for Santiago with supplies chiefly for the wounded at the front. She carries over three quarters of a million dollars to be paid the troops.

TO OCCUPY GUANTANAMO.

Santiago, July 26.—It is difficult to see how the large body of Spaniards at Holguin can fail to surrender although reinforced from Gibar City, one of the commanding points in eastern Cuba. The surrender of the garrison will be an important event of the war. The news of this is expected shortly. The first infant y under General Bisbee started to occupy Guantanamo yesterday.

MILES' LANDING PLACE.

Washington, July 26.—Officers of the war department believe that General Miles has landed a detachment of troops in Porto Rico, but are unanimous in the opinion that the landing place is not near Ponce as has been reported. Adjutant General Corbin says the landing place selected was Fajardo. There has been no direct news from General Miles to date. Officials maintain secrecy and are carefully guarding the plans of the expedition.

No Looting.

The policy of President McKinley in respect to Santiago and to any other place, which may be conquered will be approved by the whole American people.

The Cubans are not allowed to loot them. They are not to be given up to the rapacity or plundering tendencies of any one. Our quarrel is not with private citizens, but with the Spanish army. Now that the army has surrendered every private citizen will be accorded the right to return to his domicile without let or hindrance.—New York Herald.

End of a Little Scare.

Annapolis, July 25.—Anxiety in regard to reported cases of yellow fever at the naval academy having been removed, the Spanish officers, who were sent to cadet quarters as a precaution will return to their former quarters.

Naval academy physicians say there is no apprehension of yellow fever, the only illness among the prisoners being due to malaria.

Off to Cuba.

Two state papers comment upon the fact that North Carolina farmers are regretting the disappearance from the state of the carrion birds, the turkey buzzards. They have undoubtedly taken wing to Cuba! A horrible story is to be read between the lines—Charlotte Observer.

Fitzhugh Lee.

The demands of justice and the sentiment of the American people will be satisfied with any proposition which does not include the election of Fitz Lee as governor general of Cuba. The president will be made aware of his mistake if he proceeds otherwise.—Tennessee Democrat.

SAW A SPANISH FLAG.

But Indiana Miners Soon Shot the Emblem Down.

Terre Haute, Ind., July 25.—The earliest riser today in the mining town of Geneva saw a Spanish flag floating from a pole erected during the night. He quickly aroused his neighbors, and, while the crowd was discussing the sight an old miner appeared among them with a shotgun and began shooting at the emblem. It was the cue for every man who could get a gun, and soon the flag was in ribbons. Then the rope was shot away and the tattered rag fell to the ground.

Three cheers for "Old Glory" were called for and a contribution was taken up to buy a flag of Stars and Stripes of good quality. When it arrives the miners will have a characteristic miners' celebration.

It is not known who hoisted the Spanish flag, but it is thought to have been the work of two or three miners who wanted to have some fun.

Too Hasty.

Coal Dealer (anxiously)—Hold on! That load hasn't been weighed. It looks to me rather large for a ton.

Driver—Tain't intended for a ton.

It's two tons.

Dealer—Beg pardon. Go ahead.—N. Y. Weekly.

Fire Laddies Off for Goldsboro.

Several of the South Side hose company's men left at noon today for Goldsboro to attend the association. A number of firemen from Asheville passed through at noon today.

THEY DREAD IT.

The Union Populist is a new paper started last week at Greenville, Pitt county. It is a fusion sheet and would be more properly named "Rep-Pop." The second issue brings forth the following labored effort:

Dewey's victory at Manila was a wonderful event. A gun that will throw a shot thirteen miles is a wonderful thing, the first baby in the house is always a wonderful thing, and so was the destruction of Cervera's fleet, but the most wonderful thing of the present campaign will be a democratic speech thirty minutes long in which the "nigger racket" is not worked half that time.

And so the list of "wonderful things" must include the Union-Pop. But, seriously, it is wonderful how the populists have degenerated in a few short years. Organized with the ostensible purpose of fighting for free silver, they have about discarded the farmers' alliance and formed an alliance with the only organized enemy of their heart's fondest desire. They have not only voted against every principle enunciated in their beloved and oft-quoted Ocala platform, but they have voted to place incompetent colored men in office. They have not only done this, but their newspapers are bravely coming to the rescue and are openly and unblushingly defending the disgraceful and shameful conditions now existing in this state.

They are making heroic and strenuous efforts to steel the rank and file against the awful avalanche of scathing rebuke which they hear rumbling in the distance. They have begun early to warn their followers of what democrats will say concerning the negro question. It is like the fellow who began to sing when about to pass a graveyard.

But all the noise they can make will not drive away the ghost of their misdeeds. Those who dare to stand up and defend the results of fusion without first clothing themselves with an elephant or alligator skin need not expect to escape unscathed the righteous indignation of a misrepresented people.

The present war is costing Uncle Sam millions of cold cash. The contract for carrying the Spanish prisoners home should have been let to our own steamship companies. Giving it to the Spaniards themselves strikes us as being about as sensible as when two fellows are engaged in a rough and tumble and one of them takes a brickbat out of his pocket and hands it to the other fellow. He knows the other chap will knock wads of hair off his

head with it, but gives it to him anyway. It would not be surprising to hear of a movement on the part of the present administration to pension the Spanish soldiers.

THE COLON CAN BE RAISED.

An Engineering Feat of Large Proportion, Says Hobson.

New York, July 25.—Lieutenant R. P. Hobson arrived in the city today from Washington and after consulting with the officials of the Merritt & Chapmanwrecking company announced that that company had consented to undertake the rescue of the Cristobal Colon and was making every effort to begin the work of raising the vessel as soon as possible.

"The difficulty of saving the Colon," said he, "lies in the complete submergence, upon her beam end, of a steamer of 7,000 tons. Only a short portion of her stern is clear of water, which fills her whole interior. Her sea valves are open and her sides are in a few places perforated by shells. The beach upon which she lies is exceedingly shelving, forming a part, in fact, of the mountain which rises from the sea and towers aloft. In short, all the conditions are present which render the righting and raising of the ship an engineering feat of large proportions. At the same time it is simple and quite feasible. No new appliances are needed, nothing has to be invented: it is simply a question of getting to the spot in time with the accepted means and methods on a sufficient scale."

As to the plan for raising the ship, Lieut. Hobson said:

"We will run the pontoon along side of the Cristobal Colon, submerged them, and after chains under the bottom of the ship have been fastened to the pontoons and tightened the pontoons will be pumped out. At the same time we will use air pumps in trying to force the water out of her air chambers and water-tight compartments. If many of these compartments are found to be in good condition this combined force from the outside and inside will be sufficient to raise the Colon several feet. If they are not sufficient then airbags will be put in her hold and inflated by compressed air. Every time the ship is raised a few feet from the bottom she will be towed further in shore, so that after several easy stages she will be high enough from the water to make all the necessary repairs. It is thought that her hull is not in a leaky condition, but that it was the opening of the sea valves by the Spaniards which sank the ship after they saw that it was impossible to get away. If that is found to be the case the Colon may be quickly towed to a dry dock in this country for permanent overhauling."

"I think it will be fully two weeks before the work of raising the Colon can begin. As to when it can be finished will depend largely on the smoothness of the water. Pontoons can not be worked in rough water. Fortunately for us the weather has been propitious thus far and it is our hope that it will continue until the Colon is high and safe on the beach."

Lieutenant Hobson went over to Glen Ridge, N. J., this afternoon and lunched with Mrs. Sampson, wife of Rear Admiral Sampson. Constructor Hobson bore special messages to Mrs. Sampson from the Admiral.

Lieutenant Hobson left at midnight tonight for Boston, for the purpose of inspecting the pontoons to be used in raising the wrecks of the Cristobal Colon and the Maria Teresa. He said before leaving:

"I hope to finish my business in Boston in a day and return to Washington Wednesday. I don't know how soon I shall leave for Cuba."

To-night he was the recipient of an informal reception by the members of the Army and Navy Club.

The Gathering Warships.

London, July 25.—A special dispatch from Shanghai says four Russian men-of-war have left Port Arthur and it is supposed their destination is the Philippine Islands.

Another special dispatch from Shanghai says the Japanese warships Woshino, Chinyen, Itsukushima and Sai Yen, have been hastily dispatched to Sieseho to reinforce the Japanese squadron there, making it the strongest on those waters. It has been ordered to co-operate with the British and American Admirals in the event of international complications.

While the dispatch does not explain the matter, it is inferred the squadron is desired to be in readiness for Philippine operations.

Notes of The Prowler

I am all in a muddle; and between the hot weather, the board of strategy, the onions and buttermilk I had for dinner, the annexation of Hawaii and the gathering of warships in the east, I hardly know "where I am at." If there was another Sunday school excursion going to Franklinville, I believe I would go down there and rest a spell.

The weather has been rather warm for wheeling, and it is just now between the season for early and late peaches, but several late trees have been located; also a watermelon patch or two. The moon is beginning to give light, too. Fruit and watermelons are always better when plucked in the night. The dew cools the melons nicely without the use of ice, whereas, if they are plucked and eaten in the day time they are too hot from the sun and are liable to make you sick. If you are not an expert, however, you may pull green melons in the dark, as you cannot see when the curl is dead.

MR. ST. JOHN'S PROTEST.

Doesn't Cut Much of a Figure With the War Department.

Washington, July 25.—The War Department has received a letter from a New York attorney, representing J. L. St. John, protesting against the award for transporting the Spanish prisoners in Spanish ships. In addition to the claims that have been made in this matter heretofore, he alleged that his client had not been heard respecting a bid which he had put in. Col. Hooker replied to the attorney today, saying that Mr. St. John's bid was upon a letter denoting him a paper manufacturer, and Mr. St. John had not responded to a telegram requesting his presence in Washington, save by a letter saying that he was glad that the contract had been placed so advantageously to the government. Colonel Hooker also said that the Department was fully advised as to the location of the Spanish ships before the contract was made.

Probably before the end of the week the Spanish company will begin the discharge of its obligation, and have shipped at Santiago at least 1,000 of the Spanish soldiers on the journey to Spain, a trip which it is expected will occupy about fifteen days.

Word came to the War Department today, through the medium of the United States consul at Fort de France, Island of Martinique, that the Spanish steamship Alicante, which has been lying there for several weeks, was about to sail for Santiago to ship some of the prisoners. She is due to arrive there about Thursday morning.

Persons troubled with diarrhoea will be interested in the experience of Mr. W. M. Bush, clerk of Hotel Dorrance, Providence, R. I. He says: "For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks completely prostrated me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I fortified myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by C. E. Holton.

The Grandest Remedy

Mr. R. B. Greeve, merchant, of Chilhowie, Va., certifies that he had consumption, was given up to die, sought all medical treatment that money could procure, tried all cough remedies he could hear of, but got no relief; spent many nights sitting up in a chair; was induced to try Dr. King's New Discovery, and was cured by use of two bottles. For past three years has been attending to business, and says Dr. King's New Discovery is the grandest remedy ever made, as it has done so much for him and also for others in his community. Dr. King's New Discovery is guaranteed for coughs, colds and consumption. It doesn't fail. Trial bottles free at C. E. Holton's drug store.

FATE OF THE SHIP'S PET.
A Fourth of July Celebration Which Ended in Disaster.
"That billygoat the boys had for a mascot on the New York," remarked the paymaster's clerk, "suggests a monkey that my father used to tell me about that they had on a frigate in the times before the war. This monkey the sailors had picked up somewhere in the Indian ocean countries.
"The ship was stationed in the China ports for a year, and during that time the monkey was the light and joy of the whole crew. When the Fourth of July came around, permission was asked from the harbor authorities of the port where they were to fire a salute, and preparations were made for doing it in style. The regular salute was fired, and then it was proposed that the crew sing 'The Star Spangled Banner' and fire a gun for chorus. The gun was loaded and everything was left ready while the crew went to the main deck, where something to drink the health of the nation was to be served before the song was sung, and the gunner was to be sent back to shoot off the chorus.
"The programme was carried out to the letter. Then the men scattered, and somebody thought of the monkey. But he was not to be found. The cook hadn't seen him, nor had the cook's boy, nor would he respond to any of the calls that usually brought him flying. What had become of him no one knew until 6 o'clock, when a boat's crew went ashore to a big spring for water. The ship lay off from this spring about a quarter of a mile, and over it was a big shade tree. When the men came to the spring, they noticed in the branches of the tree something that had a familiar look to it, and knocking it out with sticks and stones they found the pink nose of their poor little pet attached to a few shreds and patches of monkey skin.
"That told the story of the disappearance of Mug, the monkey. He had in a spirit of sport chased himself into the mouth of that saluting cannon and when they fired it Mug went ashore."—Washington Star.

LINCOLN ESCAPED.
A Vain Attempt to Inoculate Him With Smallpox in 1861.
During the exciting period of 1861 great fears were entertained for the safety of the president, and every precaution was taken to insure his personal protection.
One morning there appeared at the White House a woman, closely veiled, demanding an immediate interview with Mr. Lincoln. Approaching Messenger Perkins, who guarded the door of Mr. Lincoln's private office, the visitor made known her request and pleaded earnestly that she be admitted to a personal interview. The doorkeeper's orders were, however, very strict, and finding her eloquence all in vain she finally compromised by confiding her message to the courteous but firm employe. Taking him to one side, the veiled lady seized both his hands in hers and tenderly rubbed them as she extracted a promise that he would immediately deliver her request to the president. Perkins was almost overcome by a most peculiar odor that appeared to emanate from his companion and hastened to get rid of her without creating a scene.
No sooner had he accomplished this than he confided to one of the official household the effect produced upon him while in conversation with the importunate visitor. A physician who was present promptly divined the truth and instituted a search for the woman, when it was learned that she had driven rapidly away in a carriage, and all trace was lost. Perkins was immediately ordered to return to his home and await developments.
Within the usual period he was taken ill with one of the worst cases of virulent smallpox on record, and for weeks lay at the point of death. Upon his recovery the faithful messenger, whose devotion to duty doubtless saved the life of the president, was appointed by Mr. Lincoln to a permanent position on the clerical staff of the war department.—Washington Post.

One of the Mean Ones.
A worthy old Gentleman in the County, having employed an Attorney, of whom he had a pretty good Opinion, to do some Law Business for him in London, he was greatly surprised on his coming to Town, and demanding his Bill of Law Charges, to find that it amounted to at least three Times the Sum he expected; the honest Attorney assured him that there was no Article in his Bill but what was fair and reasonable; May, said the Country Gentleman, here is one of them I am sure cannot be so, for you have set down three Shillings and four Pence for going to Southwark, when none of my Business lay that Way; pray what is the Meaning of that Sir; Oh! Sir, said he, that was for fetching the Chine and Turkey from the Carriers, that you sent me for a Present, out of the Country.—"Joe Miller's Jest Book," 1739.

Consideration.
Clerk—I have been in your employ now going on five years, and I am getting the same salary I started with.
Proprietor—I know it, but every time that I've made up my mind to cut you down or discharge you something has reminded me of your wife and little ones at home, and so I just couldn't do it. There, my man, you see I have a heart as well as a head.—Chicago News.

Blood Brains Money
A sick man can't make money that's because his brain won't work. A horse won't do work unless he is properly fed. Neither will a brain. If the brain is not kept in good condition with pure, rich blood, it won't produce much.
Men who fail, and men who don't, often have what they call "Nervous Prostration." Nine times in ten the nervous trouble is purely secondary. The real sickness is in their digestion and in their blood. If a man keeps his digestion in good order, and keeps his body full of pure, rich blood, he is never going to be very sick.
Johnston's Sarsaparilla is made for people who want to get well and stay well. Sarsaparilla is a simple, "grandmother" remedy, but it cures. It purifies and enriches the blood and sends it tingling to every part of the body. That is the way it cures all ailments of the brain and nerves—cures insomnia—cures dyspepsia, rheumatism, scrofula, and every other blood disease. It clears the complexion, plumps out the cheeks, and brings back the sparkle to lifeless eyes.
One Dollar is the price, and One thousand Dollars is the health-giving value of every Quart Bottle of

Hobson's Mother in Atlanta.
Atlanta, July 25.—Mrs. Sallie Hobson, mother of Lieutenant Hobson, arrived here today on a visit to her son, John N. Hobson. Mrs. Hobson expects to meet the lieutenant here before he returns to Santiago.

May Request Miss Schley to Depart.
London, July 26.—The Madrid correspondent of the Daily Telegraph says:
"An American lady, said to be Commodore Schley's daughter, has arrived here, but neither the queen regent nor any responsible personage will receive her. She will probably be requested to depart at the earliest possible date."
[Presumably the American lady referred to is Miss Jessie Schley, daughter of Chas. Schley, of Milwaukee, a cousin of Commodore Schley.]

Come and look at a lot of sample patterns of nice fancy cassimere and worsted trouserings in fine checks and stripes, at Thacker & Brockman's. We are selling them so low that you can have a tailor made pair for just as little money as you pay for the ready-made.

"The Story of Evangelina Cisneros. Told by Herself," is the title of an interesting book offered for sale by Clyde Lyon. It is handsomely illustrated and tells of the prison life of that young lady and of her rescue by Karl Decker, of the New York Journal. The book is intensely interesting and will no doubt meet with a ready sale.

Eugene Thom and Charles Currie, car cleaners at the Southern, had a little difficulty near the depot this morning and had resorted to blows to settle the matter. They were pounding each other on the head and in the face, when Officer Jordan came up and signalled "cease firing." The fighting stopped short and both began to explain to the officer how the fight began. They are right good fellows, and Officer Weatherly summoned them to appear at the police court this afternoon instead of locking them up.
